Markdown to PDF

Simple and easy to use Markdown to PDF converter

Getting Started

Prerequisites

- Internet connection
- `curl`, `wkhtmltopdf`

Installation

Use directly with `./mdtopdf` or copy to `$PATH`, for example:

```
$ sudo cp mdtopdf /usr/local/bin/
```

Usage

This will create example.pdf in the current directory

```
$ mdtopdf example.md
```

Or if you want to change the PDF name:

```
$ mdtopdf input.md output.pdf
```

How it works

1. Convert Markdown to HTML using GitHub REST API
2. Apply GitHub Markdown CSS to the generated HTML
3. Convert HTML to PDF
